**Kansas Arts Commission****Notice of Major Grant Application Deadline**

Non-profit organizations and public agencies in Kansas may apply until 5 p.m. February 1 for funding support from the Kansas Arts Commission through the Major Grant program for fiscal year 1994 (July 1, 1993-June 30, 1994).

Not-for-profit organizations must be incorporated as such with the Kansas Secretary of State, must have applied for tax-exempt status with the federal Internal Revenue Service, and must not have outstanding final report forms for any commission grant.

Applicants are expected to meet all pertinent federal requirements regarding civil rights, equality, non-discrimination, education, and accessibility for persons with disabilities.

Applicants may request an amount up to 50 percent of their proposed budget in one of the five Major Grant categories. The grant request must be matched with cash and in-kind services by the applicant.

The five grant categories are:

- **Project Support**, for one-time or stand-alone arts events that do not require on-going support. Non-arts organizations may apply to support arts activities.
- **Basic Program Support**, to assist arts organizations with operating expenses, such as programming, administration, and marketing.
- **Presenter/Festival Support**, to assist arts agencies with operating expenses for yearly festivals and presenting forums. This is a new category.
- **Local Arts Agency Support**, to assist local arts agencies with operating and programming expenses.
- **Statewide Arts Service Organization Support**, to assist service organizations that serve a statewide arts constituency.

In April 1993, the commission will convene a funding advisory panel in each category to review and evaluate the applications and to recommend funding amounts. Each panel is comprised of commissioners and persons knowledgeable in the arts, business and industry from across Kansas.

The applications are evaluated on such criteria as adherence to the guidelines, evidence of quality and value to the citizens of Kansas, development and progress of the organization, reasonable budget costs, and evidence that services extend to all constituencies, including culturally diverse populations, people with disabilities, institutionalized persons, and older citizens.

The panel recommendations will be submitted to the full commission for action during the quarterly business meeting in May 1993. The amounts of the grants awarded in relation to the amounts requested may vary in relation to such factors as total funds available, allocations to each category, the number of applicants in each category, and each applicant's funding history, if any.

Guidelines and application forms for the Major Grant program may be obtained by contacting the Kansas

Arts Commission, 700 S.W. Jackson, Suite 1004, Topeka 66603-3758, (913) 296-3335; FAX (913) 296-4989. Persons with special communications needs may utilize the Kansas Relay Center, 1-800-766-3777.

### Behavioral Sciences Regulatory Board

#### Notice of Hearing on Proposed Administrative Regulations

The Behavioral Sciences Regulatory Board will conduct a public hearing from 8 to 9 a.m. Tuesday, January 26, in Room 108 of the Landon State Office Building, 900 S.W. Jackson, Topeka, to consider proposed permanent rules and regulations (K.A.R. 102-5-1 through 102-5-12), which will administer registration of marriage and family therapists.

The proposed regulations provide definitions, fees, educational requirements, applications for registration with examination, examinations, registration without examination-grandparenting provision, professional post-graduate supervised experience requirement, registrations, renewal, continuing education for registrants, documentation for continuing education, and unprofessional conduct.

The regulations have an economic impact for both the board and registrants. There may be an economic impact for the general public in that registered marriage and family therapists may charge higher fees to the public than may be charged by non-registered practitioners.

A copy of the proposed regulations and a copy of the economic impact statement may be obtained by submitting a written request to the Behavioral Sciences Regulatory Board, Room 651-S, Landon State Office Building, 900 S.W. Jackson, Topeka 66612-1263.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations.

All interested parties may submit written comments prior to the hearing to the address above. All interested parties also will be given a reasonable time, not to exceed five minutes, to present their views orally or in writing concerning the adoption of the proposed regulations. Following the hearing, all written and oral comments submitted will be considered by the board prior to adoption.

## Board of Regents

Notice of Hearing on Proposed  
Administrative Regulations

A public hearing will be conducted at 9 a.m. Friday, January 15, in the boardroom of the State Board of Regents, Suite 609, Capitol Tower, 400 S.W. 8th, Topeka, to consider the adoption of amendments to permanent regulations of the State Board of Regents.

All interested parties may submit written comments prior to the hearing to Ted D. Ayres, General Counsel and Director of Governmental Relations, State Board of Regents, 400 S.W. 8th, Topeka 66603. All interested parties will be given a reasonable opportunity at the hearing to present their views orally on the adoption of the proposed amendments to the regulations. In order to give all parties an opportunity to express their views, it may be necessary to request each participant to limit oral presentation to five minutes.

This 30-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations.

K.A.R. 88-10-4 and 88-11-5 are being updated and revised. These regulations are intended to implement the requirements of K.S.A. 1991 Supp. 74-4925. The regulations set forth various requirements and guidelines for making voluntary tax-sheltered annuities available to certain employees of the State Board of Regents. K.A.R. 88-10-4 and K.A.R. 88-11-5 have been revised to add a minimum threshold requirement of prospective participants before a company can be added to the list of companies eligible to offer voluntary tax-sheltered annuity plans to certain employees of the State Board of Regents.

It is anticipated that this requirement may make it more difficult for companies to be added to the list. However, it is not believed that any employee will be unduly limited relative to investment opportunities and/or choice of voluntary tax-sheltered annuity products.

It is not expected that there will be any increase in costs to the Board of Regents or the institutions governed by the board. No other costs to the public are anticipated.

Copies of the proposed regulations and the economic impact statement may be obtained by contacting Ted D. Ayres at the address above, (913) 296-3689.

The bonds will bear interest at rates to be determined when the bonds are sold as hereinafter provided, which interest will be payable semiannually on March 1 and September 1 in each year, beginning on March 1, 1994.

**Place of Payment and Bond Registration**

The principal of and interest on the bonds will be payable in lawful money of the United States of America by check or draft of the Kansas State Treasurer, Topeka, Kansas (the paying agent and bond registrar).

The principal of the bonds will be payable at maturity or upon earlier redemption to the registered owners upon presentation and surrender of the bonds at the office of the paying agent. Interest on the bonds will be paid by check or draft mailed by the paying agent to the persons in whose names the bonds are registered on the registration books maintained by the bond registrar at the close of business on the record date for such interest, which shall be the 15th day (whether or not a business day) of the calendar month next preceding such interest payment date.

The district will pay for the fees of the bond registrar for registration and transfer of the bonds and will also pay for printing a reasonable supply of registered bond blanks. Any additional costs or fees that might be incurred in the secondary market, other than fees of the bond registrar, will be the responsibility of the bondholders.

**Redemption of Bonds Prior to Maturity**

At the option of the district, bonds maturing on September 1, 2004, and thereafter will be subject to redemption and payment prior to maturity on September 1, 2003, and thereafter in whole or in part on any interest payment date (bonds of less than a single maturity to be selected by lot in multiples of \$5,000 principal amount by the paying agent and bond registrar in such equitable manner as it shall designate), at the principal amount thereof, plus accrued interest to the redemption date, without premium.

Whenever the district is to select the bonds for the purpose of redemption, it shall, in the case of bonds in denominations greater than \$5,000, if less than all of the bonds then outstanding are to be called for redemption, treat each \$5,000 of face value of each such fully registered bond as though it were a separate bond of the denomination of \$5,000.

If the district shall elect to call any bond for redemption and payment prior to the maturity thereof, the district shall give written notice of its intention to redeem and pay said bonds on a specified date, the same being described by number and maturity, said notice to be mailed by United States certified mail addressed to the paying agent and bond registrar, and to the manager or managers of the underwriting account making the successful bid, each of said notices to be mailed at least 30 days prior to the redemption date. Thereafter the paying agent and bond registrar will notify the owners of the bonds of the district's redemption call by United States mail, postage prepaid. If any bond be called for redemption and payment as aforesaid, all interest on such bond shall cease from and after the date for which such call is made, provided funds are available for its payment at the price hereinbefore specified.

**Conditions of Bids**

Proposals will be received on the bonds bearing such rate or rates of interest as may be specified by the bidders, subject to the following conditions: The same rate shall apply to all bonds of the same maturity. Each interest rate specified shall be a multiple of  $\frac{1}{8}$  or  $\frac{1}{20}$  of 1 percent. No interest rate shall exceed the

index of treasury bonds published by *The Bond Buyer*, successor to *MuniWeek*, in New York, New York, on the Monday next preceding the day on which the bonds are sold, plus 2 percent. The difference between the highest rate specified and the lowest rate specified shall not exceed 2 percent. No supplemental interest payments will be authorized. No bid of less than the principal amount of the bonds and accrued interest will be considered. Each bid shall specify the total interest cost to the district during the life of the bond issue on the basis of such bid, the premium, if any, offered by the bidder, and the net interest cost to the district on the basis of such bid. Each bid shall also specify the average annual net interest rate to the district on the basis of such bid. Bidders shall specify in the bid form the prices (exclusive of accrued interest), expressed as a dollar price, at which the bidder intends that each maturity amount of the bonds shall be initially offered to the public (the initial reoffering prices).

#### Basis of Award

The award of the bonds will be made on the basis of the lowest net interest cost to the district, which will be determined by subtracting the amount of the premium bid, if any, from the total interest cost to the district. If there is any discrepancy between the net interest cost and the average annual net interest rate specified, the specified net interest cost shall govern and the interest rates specified in the bid shall be adjusted accordingly. If two or more proper bids providing for identical amounts for the lowest net interest cost are received, the district shall determine which bid, if any, shall be accepted, and its determination shall be final.

#### Security for the Bonds

The bonds will be general obligations of the district payable as to both principal and interest for the district's general obligation bonds from ad valorem taxes which may be levied without limitation as to rate or amount on all the taxable tangible property, real and personal, within the territorial limits of the district.

#### Internal Revenue Code of 1986

The Internal Revenue Code of 1986 imposes requirements on the district which must be met subsequent to the issuance of the bonds by the district and, as a result, the district will and does hereby covenant that it will diligently undertake those steps necessary to maintain the tax-exempt status of the bonds. The district's failure to comply with such requirements could adversely affect the tax-exempt status of the bonds. Purchasers of the bonds should be aware that should the bonds lose their status as tax-exempt obligations as a result of the district's failure to comply with such requirements, the bonds are neither callable nor will the rate of interest on the bonds be adjusted to reflect such circumstances.

The code includes interest on tax-exempt obligations, such as the bonds, in the adjusted current earnings of certain corporations in the calculation of alternative minimum taxable income, with certain other adjustments. Furthermore, Section 59A of the code, as added

by the Superfund Amendments and Reauthorization Act of 1986, provides for a new environmental tax generally based on corporate alternative minimum taxable income. The amount of the tax is equal to 0.12 percent of the excess of alternative minimum taxable income, without regard to net operating losses and the deduction for this tax, over \$2 million. The environmental tax is imposed whether or not the taxpayer is subject to the alternative minimum tax. The environmental tax may subject certain bondowners to additional taxation for interest earned on the bonds.

The code also requires property and casualty insurance companies to reduce the amount of their deductible underwriting losses by a percentage of the amount of tax-exempt interest received or accrued on such obligations. With the exception of certain "qualified tax-exempt obligations," the code provides that banks and thrift institutions may not deduct any portion of the interest cost of purchasing or carrying tax-exempt obligations such as the bonds. The district does intend to designate the bonds as "qualified tax-exempt obligations" under Section 265 of the code.

#### Legal Opinion

The bonds will be sold subject to the legal opinion of Nichols and Wolfe Chartered, Topeka, Kansas, bond counsel, whose approving legal opinion as to the validity of the bonds will be furnished and paid for by the district, printed on the bonds and delivered to the successful bidder when the bonds are delivered. Said opinion will also state that in the opinion of bond counsel, assuming continued compliance by the district with the provisions of the resolution authorizing the issuance of the bonds and the code, under existing law, the interest on the bonds is excludable from federal income taxation. Interest on the bonds will also be excludable from the computation of Kansas adjusted gross income.

#### Delivery and Payment

The district will pay for printing the bonds and will deliver the bonds, without cost to the successful bidder, properly prepared, executed and registered, on or about December 29, 1992, at such bank or trust company in the state of Kansas or greater Kansas City, Missouri, metropolitan area as may be specified by the successful bidder. Delivery elsewhere will be at the bidder's expense. Said bidder will also be furnished with a certified transcript of the proceedings evidencing the authorization and issuance of the bonds and the usual closing documents, including a certificate that there is no litigation pending or threatened at the time of delivery of the bonds affecting their validity and a certificate regarding the completeness and accuracy of the official statement. Payment for the bonds shall be made in Federal Reserve funds, immediately subject to use by the district. The denominations of the bonds and the names, addresses and Social Security or taxpayer identification numbers of the registered owners shall be submitted in writing by the successful bidder to the district and bond registrar not later than 3 p.m. C.S.T. on December 18, 1992. In the

(continued)

absence of such information, the district will deliver bonds in the denomination of each maturity registered in the name of the successful bidder.

The successful bidder shall furnish the district by 11 a.m. C.S.T. on December 17, 1992, a certificate acceptable to the district's bond counsel to the effect that (i) the successful bidder has made a bona fide public offering of the bonds at the initial reoffering prices, and (ii) a substantial amount of the bonds was sold to the public (excluding brokers and other intermediaries) at such initial reoffering prices. Such certificate shall state that: (1) it is made on the best knowledge, information and belief of the successful bidder, and (2) 10 percent or more in par amount of the bonds of each maturity was sold to the public at or below the initial reoffering prices (such amount being sufficient to establish the sale of a "substantial amount" of the bonds).

#### Good Faith Deposit

Each bid shall be accompanied by a cashier's or certified check drawn on a bank located in the United States of America in the amount of \$46,000, payable to the order of the district to secure the district from any loss resulting from the failure of the bidder to comply with the terms of the bid. No interest will be paid upon the deposit made by the successful bidder. Said check shall be returned to the bidder if the bid is not accepted. If a bid is accepted, said check shall be held by the district until the bidder shall have complied with all of the terms and conditions of this notice, at which time said check shall be returned to the successful bidder or deducted from the purchase price at the option of the district. If a bid is accepted but the district shall fail to deliver the bonds to the bidder in accordance with the terms and conditions of this notice, said check shall be returned to the bidder. If a bid is accepted but the bidder shall default in the performance of any of the terms and conditions of this notice, the proceeds of such check shall be forfeited to the district with the district reserving the right to pursue any consequential damages arising from such default.

#### CUSIP Numbers

CUSIP identification numbers will be printed on the bonds, but neither the failure to print such number on any bond nor any error with respect thereto shall constitute cause for failure or refusal by the purchaser thereof to accept delivery of and pay for the bonds in accordance with the terms of this notice. All expenses in relation to the assignment and printing of CUSIP numbers on the bonds will be paid by the district.

#### Bid Forms

All bids must be made on forms which may be procured from the district clerk. No additions or alterations in such forms shall be made and any erasures may cause rejection of any bid. The district reserves the right to waive irregularities and to reject any or all bids.

#### Submission of Bids

Bids must be submitted in sealed envelopes addressed to the undersigned district clerk and marked "Proposal for the Purchase of General Obligation

Bonds." Bids may be submitted by mail or delivered in person to the undersigned at the district's administrative office, 32502 Easton Road, Easton, KS 66020, and must be received by the undersigned prior to 3 p.m. C.S.T. on Wednesday, December 16, 1992.

#### Date and Delivery of Preliminary and Final Official Statement

The district has authorized the preparation and distribution of a preliminary official statement containing information relating to the bonds. The preliminary official statement comprises the final official statement required by Rule 15c2-12 of the Securities and Exchange Commission.

The preliminary official statement, when amended to include the interest rates specified by the purchaser and the price or yield at which the purchaser will re-offer the bonds to the public, together with any other information required by law, will constitute a "Final Official Statement" with respect to the bonds as that term is defined in Rule 15c2-12. No more than seven business days after the date of the sale, the district will provide without cost to the purchaser such reasonable number of printed copies of the final official statement and further copies, if desired, will be made available at the purchaser's expense. If the sale of the bonds are awarded to a syndicate, the district will designate the senior managing purchaser of the syndicates as its agent for purposes of distributing copies of the final official statement to each participating purchaser. Any purchaser executing and delivering a bid form with respect to the bonds agrees thereby that if the bid is accepted it shall accept such designation and shall enter into a contractual relationship with all participating purchasers for the purpose of assuring the receipt and distribution by each such participating purchaser of the final official statement.

The district will deliver to the purchaser on the date of delivery of the bonds a certificate executed by the president and the district clerk to the effect that the final official statement, as of the date of delivery of the bonds, does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in the light of the circumstances in which they are made, not misleading.

Copies of the district's preliminary official statement relating to the bonds may be obtained from the district clerk, Unified School District 449, 32502 Easton Road, Easton, KS 66020, (913) 651-9740, or the district's financial advisor, B. C. Christopher, a division of Fahnstock & Co., Inc., 4717 Grand Ave., Suite 800, Kansas City, MO 64112, (816) 932-7121.

#### **Article 1.—REGIONAL SYSTEMS OF COOPERATING LIBRARIES**

**54-1-23.** Allocation of the grant-in-aid fund among the regional systems of cooperating libraries. (a) The system grant-in-aid distribution specified by K.S.A. 75-2555, shall allocate a base grant of equal size to each regional library system.

(b) The remainder of each annual authorization shall allocated using a formula with the following two factors:

(1) one-fourth of the population of the system territory; and

(2) the total square miles of the system territory.

(c) The base grant component of the distribution shall be increased or decreased by an amount determined using the following calculations:

(1) Determine the percent of change in the total annual authorization from the prior fiscal year to the current fiscal year; and

(2) Multiply the percent determined under paragraph (1) by the difference between the total annual authorization in the prior fiscal year and the total annual authorization in the current fiscal year. This amount shall be added to the base grant component in those years when the authorization has been increased or subtracted from the base grant component when the authorization has been decreased.

(3) This method of allocation between the base and formula components shall be followed until the two components are equal.

(4) Future increases in the authorization shall then be equally divided between the base and formula components.

(d) In any year that the total annual authorization is decreased to, or below, the level of the 1989 amount, the fund shall be divided equally among the systems. (Authorized by and implementing K.S.A. 75-2555; effective Jan. 25, 1993.)

(c) Walls constructed of earth or other permeable materials shall be lined as provided in K.A.R. 4-4-933.

(d) Earthen walls shall have a horizontal-to-vertical slope of at least three to one, unless a steeper slope is consistent with good engineering practice, and shall be packed and protected from erosion. An exterior slope of 30 degrees or less shall be protected with grass or crushed stone. Slopes greater than 30 degrees and all interior slopes shall be protected with flat road stone or a similar crushed stone material.

(e) Walls shall not exceed six feet in height above interior grade unless provisions are made for normal

access, necessary emergency access to tanks, valves and other equipment, and safe exit from the secondary containment facility.

(f) Walls constructed of concrete or solid masonry shall rest upon a floating base of concrete prepared as required in K.A.R. 4-4-933 or upon suitable concrete footings which extend below the average frost depth to provide structural integrity. (Authorized by and implementing K.S.A. 2-1227; effective Jan. 14, 1991; amended Jan. 25, 1993.)

**4-4-933. Secondary containment requirements; lining.** (a) General requirement. The base of a secondary containment facility, and any earthen walls of the facility shall be lined with asphalt, concrete, an approved synthetic liner, a clay soil liner, or other product approved by the secretary, designed to limit permeability of the base and walls. Liners shall meet the requirements of this regulation.

(b) Asphalt or concrete liners. Asphalt or concrete liners shall be designed, according to good engineering practices, to withstand any foreseeable loading conditions, including a full hydrostatic head of discharged fluid and static loads of storage containers, including appurtenances, equipment, and contents. Cracks and seams shall be sealed to prevent leakage.

(c) Synthetic liners.

(1) All synthetic liners and installation plans shall be approved by the secretary. Until the manufacturer of the synthetic liner provides the secretary with a written confirmation of compatibility and a written estimate of the life of the liner, no approval shall be given.

(2) Synthetic liners shall not react either chemically or electrolytically with the materials being stored within the storage facility.

(3) Synthetic liners shall be installed according to the manufacturer's specifications. All field constructed seams shall be tested and repaired, if necessary, in accordance with the manufacturer's recommendations.

(d) Clay soil liners. The surface soil, including the berm of an earthen dike and 10 feet beyond the berm, shall be sealed with a sealing agent such as sodium bentonite, attapulgite clay or a similar clay material approved by the secretary. The liner shall be constructed in accordance with reliable civil engineering recommendations to establish a barrier layer which will maintain a water level up to the working height of the containment structure for 72 hours, or a clay application which results in a downward water movement of not greater than one-half of an inch per 24 hour period. The floor of the containment area shall be protected with a layer of gravel, sand, earth or crushed stone at least six inches thick placed on top of the clay liner.

(e) Exceptions.

(1) A liner need not be installed directly under a storage container with a capacity of 100,000 gallons or more that has been constructed on site and put into use prior to the effective date of this regulation if all of the following conditions are met:

(A) A second bottom made of steel or other material approved by the secretary is constructed for the storage

container, placed over the original bottom, and topped with a layer of smooth, fine gravel or coarse sand at least six inches thick;

(B) the original bottom of the storage container is tested for leaks before the sand layer or second bottom, as described in (A) are installed; and

(C) the newly constructed bottom is tested for leaks before any fluid fertilizer is stored in the storage container;

(D) records of the tests described in (B) and (C) are kept on file at the storage facility, or at the nearest local office from which the storage facility is administered; and

(E) a method to readily detect leaks from the newly constructed bottom into the sand layer is in place.

(2) The secondary containment requirements in this regulation shall not apply to rail cars which are periodically removed from the storage facility. (Authorized by and implementing K.S.A. 2-1227; effective Jan. 14, 1991; amended Jan. 25, 1993.)

**4-4-934. Use of elephant rings for secondary containment.** (a) Individual storage containers may be contained within an elephant ring as an alternative to a diked containment area. The elephant ring shall serve as a second containing wall in the event that the primary storage container develops a leak. The elephant ring shall be designed and installed to withstand a full hydrostatic head from the fluid stored in the enclosed primary storage container and all other stresses reasonably foreseeable from secondary containment of stored fertilizer.

(b) Both the primary storage container and the elephant ring shall be fabricated of materials compatible with each other and which do not react either chemically or electrolytically the fertilizer being stored. Use of any combination of metals or other materials which contribute to chemical or electrolytic corrosion is prohibited.

(c) The height of the elephant ring wall shall not exceed six feet. The volume contained within the secondary storage walls up to the working height of the elephant ring shall be sufficient to contain a volume of 110% of the volume contained in the primary storage container plus the volume displaced by the footings of any equipment such as pumps, meter or other devices, placed within the secondary containment vessel.

(d) The elephant ring shall be free of leaks and structural defects. The base of the elephant ring shall be protected from corrosion, both from inside and outside, and underlain:

- (1) by a concrete pad; or
- (2) with eight inches of compacted gravel beneath four inches of compacted sand; or
- (3) as recommended by the manufacturer of the elephant ring and approved by the secretary.

(e) All piping connections to the primary storage container shall be made over the wall of the elephant ring and adequately supported and braced. Pumps and other fixtures, if located within the elephant ring containment structure, shall be placed on an elevated platform.

(f) Accumulations of storm water and other material shall be pumped over the wall of the elephant ring by a sump pump within the secondary container, or by an exterior pump, and disposed of according to K.A.R. 4-4-935.

(g) Inspection and maintenance of the primary storage container and of the elephant ring shall be conducted as required by K.A.R. 4-4-920, and records of inspections and maintenance shall be made and maintained as required by K.A.R. 4-4-921. (Authorized by and implementing K.S.A. 2-1227; effective Jan. 14, 1991; amended Jan. 25, 1993.)

**4-4-935. Drainage from contained areas within secondary containment.** (a) Earthen or prefabricated containment area. An earthen or prefabricated containment area shall not have a relief outlet and valve. The base shall slope to a collecting spot where storm water can be discharged by pump over the berm for use in the blending process or for proper disposal in accordance with local requirements for disposal of storm water.

(b) Asphalt or concrete lined areas.

(1) An asphalt or concrete lined area shall have a recessed catch drain running through the center of the base or a sump as provided for in K.A.R. 4-4-936.

(2) The catch drain shall be at least six inches deep and 12 inches wide with an open grate cover.
